CONFER ABOUT GARBAGE

Complaints Against the Service Cause an Inquiry.

ANOTHER INSPECTOR NAMED

Attorney Joseph J. Waters Threatens to Sue for False Arrest—He Investigates Validity of the Garbage Regulations—Civil Service Examination To-day—Bids Opened.

At a private conference held yesterday between Mr. Edward Warfield, president of the Fidelity Guarantee Company, of Baltimore, and the Commissioners, the health officer being also present, there was a general canvass made of the condition of the present garbage service.

A good many complaints have been received of the inefficiency of the service, and Mr. Warfield, whose brother is the contractor for whom the company is understood to be surety, desired to be informed of their nature and extent. The interview was brief and resulted in some explanations of the specifications under which the contract was drawn, and the declaration upon the part of the Commissioners that all the provisions must be complied with.

A. O. Nash has been appointed an additional inspector in the garbage service, under the direction of the health officer. The appointment is due to the complaints received. Each complaint will be personally inspected by the officer and report made each morning of the result.

WILL SUE FOR FALSE ARREST. Attorney Joseph J. Waters, of Georgetown, was making diligent inquiry at the District building yesterday concerning the manner in which the recent garbage regulations were promulgated. He was very much incensed on account of his arrest, upon complaint of the Health Officer, for violating the section that requires a proper receipt to be placed at the back gate for the receipt of the kitchen refuse.

Mr. Waters says he placed at the Commissioners to permit the fine imposed upon him in the police court, amounting to \$5, and in the event of their refusal he will sue each individual concerned in the prosecution, upon a charge of false arrest.

He declares that the officers did not proceed within the law either in causing his apprehension or in the conduct of the case made against him. He alleges that he was denied the right of trial by jury.

The health officers say that Mr. Waters was not arrested, as a matter of fact. He was notified to come to the police court, and responded promptly, but that, had he not complied with the request, a warrant would have been procured.

They also say that Mr. Waters did not ask for a jury trial until after he had appeared and made his pleadings, and that it was then too late to claim the right to a jury.

The charge against the attorney was that he had left a wooden vessel at the gate in lieu of the metal receptacle prescribed in the regulations. He explains, however, that several of the vessels placed at the gate had been stolen in succession, and that he had had no time in which to purchase another.

SEVERE UPON VIOLATORS. The regulations are very severe upon violators, and householders will do well to read them carefully. No further notice than that contained in the printed card furnished is required. An arrest may be made upon discovery of an infraction.

The health officer announces his intention to rigidly enforce the regulations in every requirement. One special practice which it is proposed to abolish is that burning the garbage by householders. This feature should be closely investigated, and offenders will be severely dealt with.

The Civil Service Commission will hereafter conduct the examinations for appointment to District offices, when requested to do so by the Commissioners, but upon the condition that no expense to the United States shall be incurred. The District will furnish the blanks and stationery and attend to all details, whereby clerical or other expense will be entailed.

Commissioners Ross and Powell said yesterday that there is no arrangement whereby the Civil Service Commission shall assume control, but can there be but that in cases where there are examinations required the commission will upon the request of the District authorities assume the charge of that particular exercise.

There were eleven deaths reported to the health office for the twenty-four hours ending at 1 o'clock today, 10 of these five were of persons in advanced life and four were of children.

The list is as follows:
White—Casper Eberle, aged 83 years; Rose McArdle, aged 75; James Flannigan, aged 73; Harriette N. A. Nye, aged 70; Helen A. Spire, aged 70; William Purvis, aged 23; Francis R. Gray, aged 18; John B. Brunner, Jr., aged 1.
Colored—Eva C. Anderson, aged 11 years; James D. Pinn, aged 5 years; Charles R. Ford, aged 2 months.

MINOR DISTRICT NOTES.

The building inspector yesterday opened the bids submitted for painting the Mount Pleasant and Mott school buildings, as follows: The former first quoted at each case being for the Mott and the second for Mount Pleasant.

Joseph H. Johnson & Co., \$287.50 and \$146.75; Joseph C. Murray, \$363 and \$130; A. C. Clancy & Co., no bid for Mott, but \$154 for Mount Pleasant; Gibson & Sons, \$86.50 for Mount Pleasant, \$125, no bid for Mott, but \$265 for Mount Pleasant; J. C. Lee, \$675 and \$198; H. T. Hamilton, \$325 and \$142; M. F. Nicholson, \$399 and \$199; G. W. Downey, \$379 and \$169; J. B. Walling, \$364 and \$169; Guarantee Paint Company, \$280 and \$124.

A call was made for examination of applicants for the vacant inspectorship in the water department will be held at the District Building to-day at 2 o'clock p. m. There are about thirty applicants for the place, and only one-half of the number appeared at the late examination, the remainder have never received the notice in time.

Bids were opened yesterday at the office of the building inspector for supplying additional heating apparatus for the Eastern High School and Garnett School buildings respectively, as follows: For Eastern High School, C. N. Benton, \$69.20; Turner & Rees, \$60; J. W. Hendley, \$90; W. W. Buggs, \$86.50; for Garnett School, the same parties bid as follows: Benton, \$101; Turner & Rees, \$148; Hendley, \$118; Buggs, \$108.36.

Five firms bid yesterday for supplying the District with 8,000 barrels of Portland cement, the prices ranging from \$197 to \$248 per barrel. The proposals were from H. A. Jones & Co., W. J. Donaldson & Co., Sinclair & Balson, B. Wallis & Co., and the Atlas Cement Company.

Owing to the low stage of water in the reservoirs, and to the enormous demands upon the supply during the heated term, the District Engineer department has ordered that the sprinkling on the county roads be discontinued in all cases where the water for the purpose is drawn from the Potomac through the public conduits.

Mr. Edwin B. Hesse yesterday entered upon his duties as clerk of the fire department, vice Ashe, resigned.

The time is near at hand when our Great Summer Shoe Sale will be an event of the past. As the number of days diminish so do the prices on the remaining summer shoes. Here's an idea:

At \$2.90---

PLAN OF ORGANIZATION

Silverites Are Prepared for Vigorous Campaigning.

DENOUNCED THE PRESIDENT

There Will Be a National Committee of Democrats Who Are in Favor of Both Gold and Silver—Voters Urged to Form Clubs and Push the Cause Along—Closing Convention Scenes.

After the presentation of the address and resolutions at the silver convention, as stated in The Evening Times yesterday, Mr. Hill, of Missouri, moved the adoption of the document, which was done by a unanimous vote.

The plan of organization recommended by the committee was then outlined to the conference as follows: "Believing that a large majority of the Democratic voters of the United States, are in harmony with the sentiments expressed in the foregoing address and knowing that a full and free expression of their views can only be ascertained and made effective through proper organized efforts, we recommend the following as a plan of organization:

First: There shall be a national committee of Democrats, who are in favor of both gold and silver as the money of the constitution, which shall be composed of one Democrat from each State and the executive committee herein after provided for.

Second: That until otherwise ordered by the national committee Senators Harris, of Tennessee; Jones, of Arkansas; Turpie, of Indiana, and Hous, W. J. Stone, of Missouri, and W. H. Hollister, of Illinois, be, and are hereby, constituted the executive committee, and shall have full power and authority, and it shall be their duty, at as early a day as possible, to appoint the members of the national committee herein provided for, and to fill vacancies in the same.

THEY HAVE FULL CONTROL. Third: That said national committee shall have full control and direction of the patriotic effort of the bimetallic Democrats of the nation, to secure in the next Democratic convention the maintenance of the time-honored principles and policies of the Democratic party, and when the national committee herein provided for is not in session the executive committee shall have all the authority and discharge all the duties hereby conferred upon the national committee.

Fourth: It shall be the duty of the member of the national committee from each State, immediately after his appointment, to take such steps as he may deem best to organize the bimetallic forces of his State, and it is earnestly recommended that in each county and election precinct of each State bimetallic Democratic clubs be organized, and for this purpose he may appoint such committees and subcommittees as he may deem proper.

Fifth: That fully realizing the fact that this nor any other plan of organization can be successful without the hearty co-operation of the voters themselves, we urge upon every voter in every State in the Union who is in sympathy with this movement and who wishes to restore permanent prosperity to his home and country to lend his aid and influence in perfecting this organization and that each of us shall enroll himself in a club.

The conference then adjourned sine die. The executive committee held a meeting immediately after the conference closed, but adjourned without selecting members of the national committee, as authorized by the conference.

It was announced to be the purpose of the committee to organize the national committee at the earliest practicable date, but it was thought best to defer action until suggestions could be received from States which were not represented at the conference. The executive committee will reconvene at the call of the chairman.

SOME FIERY ADDRESSES. During the morning session a number of red hot speeches were delivered by delegates.

Ex-Representative Fishback, of Illinois, said that he had been defeated for re-election because he had to bear the odium of the Administration's actions in the last Congress. He was a believer in free coinage and would hide by the action of this conference.

Representative Livingston, of Georgia, said that the trade, commerce and agriculture of the United States were again in jeopardy and that another declaration of independence was needed. If England were given the control of our money system, she would control the country—a thing which she could not do by force of arms.

He referred to the recent bond issues, and said they were the most disgraceful thing a party ever did.

Senator Call, of Florida, was in accord with the movement now proposed, and thought that the people of the country were now ready to join the great triumphal march.

Mr. Hill, of Missouri, when called, responded by thanking God that he was not Hill of New York.

BLAMED THE PRESIDENT. In two short years Mr. Cleveland had led the Democratic party to defeat and disgrace by a series of acts of perfidy and treachery unprecedented in the history of this country.

Mr. Cleveland and Mr. Carlisle, he said, would go down the lanes of oblivion hand in hand, amid the cries of indignation of the people.

Senator Brice, he said, was the black-white man, and as great a traitor as Cleveland, Carlisle and Gorman.

When the committee reports were announced as complete, shortly before noon, Senator Jones took the chair, and Gov. Stone, of Missouri, presented the address. He announced that it was substantially the same as that partially adopted by the Texas silver convention and adopted in toto by the Mississippi convention.

DEMANDS OF THE PARTY.

The preamble recites the holding of the Memphis convention, the subsequent call issued by Senator Harris, Turpie, and Jones, of Arkansas, and declares the present conference to have been a purely voluntary assemblage, not authorized to speak with party authority.

The declaration on the monetary question begins with the constitution, refers to the policies of Jefferson and Jackson, which later became the doctrine of the Democratic party, and the alleged surreptitious demonstration of silver.

After giving the history of gold monometalism and asserting the Democratic party to be the traditional friend and champion of bimetalism, a series of resolutions are appended, declaring that the next national convention of the party should demand free coinage at the rate of 16 to 1, independent of other nations; declares its irrevocable opposition to a panic-breeding, corporation credit currency; oppose surrendering the option of redemption, and protest against the issuance of interest-bearing bonds.

A 95c Shoe Day

Our Great "Mid-Summer Closing-Out Sale" ends Saturday night, and with it your last opportunity this season to buy any of our Shoes at a Cut Price.

To make a clean sweep of them we shall sell for
